Dear Congressman LoBiondo:

As you are aware, we assist communities throughout southern New Jersey in their efforts to improve the quality of life and build sustainable economies.

To that end, we have identified a number of opportunities where the investment of federal funds would not only meet local and regional goals but support federal policies.

These projects are as follows:

- Alternative Energy Research Center
- Buena Solar Farm
- Next Generation Air Traffic Control/Tower Simulator/Lab
- Preserving America Historic Restorations
- South Jersey Wind Turbines

We appreciate any assistance you can provide in securing funds for these vital projects.

Thank you for you consideration.

Sincerely,

Gordon K. Dahl
Executive Director
