William D. Delahunt, M.C.

Sir:

As a Korean War vet, a voter, and now a senior citizen I am critizing the entire congressional action referencing the financial curtailment of the HMO's.

Many of my friends, as well as my wife and self will face extensive financial hardships in the coming years, The congressional HMO cuts will increase our co-pay and premiums yearly - averaging $1100 to $2000. This will be quite a subtraction from our yearly income. Especially with the current surplus, these cuts are an absurity to the voters.

I am sure I'm expressing the feelings of a lot of unheard of retired Americans.

Sincerely

[redacted]
