\$600 Million for National Guard Equipment

Led by Air and Land Forces Subcommittee Chairman Neil Abercrombie (D-HI), H.R. 2647 would authorize \$600 million for National Guard and Reserve Equipment Appropriations (NGREA) to address equipment shortfalls in the National Guard and Reserves. Abercrombie, a strong advocate for the National Guard, has held a series of hearings on National Guard and Reserve Equipment issues. His efforts have been instrumental in providing nearly \$2 billion for Guard and Reserve equipment over the past 2 years.
