Notes: School district allocations are estimates. Impact Aid estimates are for basic support payments, payments for children with disabilities, and construction (formula) programs and were provided by the National Association of Federally Impacted Schools. Title 1-A Grants to Local Educational Agencies estimates were provided by the Congressional Research Service; estimates exclude state administration and school improvement set asides with the exception of Hawaii which is both a state and the local educational agency. IDEA school district allocations are for the IDEA Part B Section 611 State Grants; estimates assume that school districts receive the same percentage share of the state's IDEA Part B Section 611 allocation in fiscal years 2003 and 2004 that they received in fiscal year 2002. 2002 school district allocations were provided by state directors of special education or the school district finance office.
