

HISPOL 000.0

The United States House of
Representatives Information
Security Policy Master Index

Version:	1.1
Approved:	August 2006
Approval Authority:	The United States House of Representatives Committee on House Administration

The United States House of Representatives Information Security Policies - HISPOLs. HISPOLs are used to identify all general policies as developed to address information security items. The numbering system for **approved** policies will be identified as HISPOL 001.0, HISPOL 002.0, etc. Policies that have been developed but **not yet approved** will be annotated as PENDING. Policies that are in process will be designated as UNDER DEVELOPMENT.
