The Honorable William Delahunt
House of Representatives
2454 Rayburn House Office Building
Washington, DC 20515-2110

Representative Delahunt:

Please renew the Milk Income Loss Contract for small farmers across our country. I think the government should assist small farmers too not just the major suppliers. As a citizen i want a choice where my food and milk supply come from. I want to insure that the small farmers that do not use rBGH hormomes are able to continue to run farms. Thank you for considering my thoughts.

Sincerely,
