Dear Congressman Goodlatte:

Please know that Casino Watch, Inc. fully supports your legislation, the *Internet Gambling Prohibition Act*. Thank you for taking the lead in this important action.

Since gambling left Nevada and became commonplace in most states, families and society in general have suffered. Now, due to the popularity of the internet and its easy access by our children and grandchildren, gambling is a major threat.

Casino Watch is a grassroots organization that protects the family from runaway gambling expansion. We wish you every success in getting this legislation passed. It will help to make America a safer place to live.

Very truly yours,
