

PETITION

To Speaker Pelosi,

As an American taxpayer, I ask you to STOP trying to spend, tax, and borrow your way to prosperity. It cannot be done.

We have now spent over \$2 trillion dollars on stimulus and bailout proposals. We must return fiscal sanity to Washington.

I also ask you to take a serious look at tax reform in this session of Congress. Our current tax code is outrageous. At more than 54,000 pages, the current tax code is burdensome and difficult to comprehend. There are better ways to fund our government and end the confusion and unfairness that is our current income tax code.

Thank you,

American Taxpayer
