Congressman appoints Latina

A 23-year resident of San Diego, Inez Gonzalez has been appointed as the district director of Congressman Bob Filner's community office after working with Community Health Group and the Metropolitan Transit Development Board.

She is fluent in English and Spanish, a graduate of the Chicano Federation's Leadership Training Institute and serves on the board of San Diego MANA.

A press release from Filner's office cites the strong community connections and significant management experience she will bring to the Filner team. Gonzalez possesses strong leadership skills and deep connections to the Imperial Valley, Latino, and business communities.

"Serving the people and neighborhoods in my district is essential," Congressman Filner said. "Hard working professional staff help me implement my goals. In her first week here, Inez has already made significant contributions. I expect even greater things from her in the years to come."

"Many members of Congress focus too much of their time and energy in Washington D.C." Filner said. "My focus has always been on my constituents and my community office. I am confident that Inez will be an asset to me and to the entire community I serve."

Inez Gonzalez, from left, joins Congressman Bob Filner's staff as district director.
