Kind Commends Gundersen Lutheran Expansion

Washington, D.C. – U.S. Rep. Ron Kind made the following statement on Gundersen Lutheran's announcement today that they will expand their facilities to include a Critical Care Tower:

“As we work to increase access to health care nationally, I am pleased that Gundersen Lutheran is expanding their facilities and services to the people of the greater La Crosse area.

“For the last ten years, Gundersen has been named ten times as a top 100 organization nationally, recognized for its integrated health care network and for leadership in quality of care and efficiency. Without a doubt, they will bring that track record of success to this expansion, allowing them to successfully respond to patient needs and provide greater access to some of most cutting-edge care out there – all while maintaining their commitment to affordability.

“As a La Crosse native, I feel fortunate to have in western Wisconsin a community of great health care providers like Gundersen Lutheran, who are recognized for high quality care and are also committed to investing in the community at large. Gundersen's expansion is a testament to that.

“This is great news for La Crosse, and all of Wisconsin, as our state works to maintain its status as a national leader in health care.”
