Spratt Announces Federal Grant for Cheraw

WASHINGTON – U.S. Rep. John Spratt (D-SC) announced today that Cheraw has won a \$6,300 grant from the U.S. Department of Agriculture. Spratt said the funds would be used to buy a thermal imaging camera for the Cheraw Fire Department.

“This camera,” said Spratt, “will help firefighters find people trapped in smoke-filled buildings, and find fires through walls. It will be a big plus for the department.”

Last year, the Agriculture department awarded Cheraw a \$34,380 grant for a new fire truck, Spratt said.
