Spratt Announces Grant for Water Project

WASHINGTON – U.S. Rep. John Spratt (D-SC) announced today that the Chesterfield County Rural Water Company has won a \$930,600 grant from the U.S. Department of Agriculture.

Spratt said the federal funds will be used to complete the water project that will serve the Town of Pageland and the surrounding area.

The project involves installation of about 392,000 feet of water line, a booster pump station, and related controls. The project will serve an additional 162 residential users while improving service to the 5,452 existing residential users and 376 other users in the service area.

The water company previously received a \$3 million loan and a \$2.2 million grant from the federal government for the project.
