Spratt Announces Printing Contract Award

WASHINGTON – U.S. Rep. John Spratt (D-SC) announced today that S&W Manufacturing Company, of Florence, has been awarded \$82,000 to produce 100,000 file folders and jackets for the federal government.

The contract is from the U.S. Government Printing Office, which last year purchased over \$440 million in printing and binding for the federal government through competitive contracts with commercial printers.
