Spratt Announces \$1 Million Grant for Kershaw County

WASHINGTON – U.S. Rep. John Spratt (D-SC) announced today that Kershaw County has been awarded a \$1 million grant from the Economic Development Administration.

Spratt said the federal grant would help the county expand its wastewater treatment plant, from .72 million gallons-per-day to 1.25 million gallons-per-day.

“This grant is welcome news,” said Spratt. “The project is expected to generate 70 new jobs and attract more than \$67 million in private investment.”

The total cost of the project is estimated to be \$3.8 million.
