### **Spratt Announces Grant for Chesterfield County**

WASHINGTON – U.S. Rep. John Spratt (D-SC) announced today that Chesterfield County Rural Water Company, Inc. has been awarded a \$141,800 grant from the U.S. Department of Agriculture.

The grant provides extra funds to a project looping new water lines together. The extra funds are needed because the Department of Transportation is adding turn lanes to Highway 601 and the new lines have to be rerouted, and because more rock than expected needs to be evacuated.
