

RFP-OAM26007S-Amendment 0004

The purpose of the Round 3 Questions and Answers is to provide clarification for Questions 434 and 33 from Rounds 1 and 2.

The responses provided in this Round 3 Q&A **supersede** the answers previously issued in both Round 1 and Round 2.

Round 1 - Updated Government F

#	Solicitation Section	Questions from Industry	Government Response
434		The RFP requires a dedicated tenancy and private network connection endpoints (private link). Is the agency mandating a specific cloud service provider (e.g., AWS GovCloud, Azure Government, Google Cloud)?	The House is not mandating the use of a specific cloud service provider (CSP). Offerors may propose any cloud environment that meets the security, connectivity, and performance requirements outlined in the solicitation, including support for a secure private connection to the House network.

Round 2 - Updated Government Response

#	Solicitation Section	Questions from Industry	Government Response
33	Question 434	Is the agency mandating a specific cloud service provider (e.g., AWS GovCloud, Azure Government, Google Cloud)? AWS Commercial or AWS GovCloud only.	The House is not mandating the use of a specific cloud service provider (CSP). Offerors may propose any cloud environment that meets the security, connectivity, and performance requirements outlined in the solicitation, including support for a secure private connection to the House network.
